Work Experience

Skysoft Global *Remote*

Trainee Software Engineer *June 2024 - Current*

- Developed dynamic, responsive web applications using React and Next.js, improving user engagement by 25% and reducing page load times by 20%.
- Created reusable UI components and design systems with Tailwind CSS and Material UI, streamlining development processes and ensuring design consistency across platforms.
- Optimized application performance by implementing lazy loading, code splitting, and efficient asset management, reducing initial load times by 30%.
- Collaborated with UX/UI teams to translate Figma designs into fully responsive, cross-browser compatible user interfaces, improving overall user experience and accessibility.

APO Group *Remote*

Lead Generation Executive *July 2021 - January 2023*

- Worked on the development of the SOS feature, including the implementation of contact fetching and storage functionalities for emergency scenarios.
- Spearheaded global media list generation and conducted comprehensive contact research for APO Group, the leading pan-African communications consultancy.
- Leveraged advanced tools and platforms to curate precise, highly targeted media lists, ensuring optimal accuracy and relevance.
- Played a key role in strategic media outreach campaigns, collaborating across teams to boost brand visibility and engagement.
- Streamlined press release distribution to targeted audiences, driving accelerated business growth for clients across Africa.
- Developed strong research and analytical skills while navigating dynamic market trends in a fast-paced environment.
- Enhanced communication skills and deepened industry knowledge, contributing to successful media strategies across various sectors.
- Proudly supported APO Group's mission to empower businesses across Africa, fostering innovation and excellence.

Core Integra Private Limited *Bhopal*

Operation Executive *March 2016- May 2021*

- Oversee daily operations to ensure production deadlines are met and quality control standards are maintained.
- Report to the Zonal Manager and provide top-level ideas while demonstrating tangible results.
- Manage operations within TCS iON, a strategic unit of Tata Consultancy Services focused on Manufacturing Industries (SMB), Educational Institutions, and Examination Boards.
- Utilize the unique IT-as-a-Service model to offer end-to-end business solutions.
- Focus on mitigating operational errors on a daily basis to drive continuous process improvement.
- Collaborate with cross-functional teams to streamline operations and optimize efficiency.
- Implement measures to enhance productivity and ensure seamless workflow.
- Proactively identify areas for improvement and implement corrective actions to drive operational excellence.

Projects

SHEYBUS-UDEMY *React, Redux*

It is a bus ticket management app that streamlines travel planning.

- Users can:
 - View and book available seats.
 - Cancel tickets easily.
- Admins have the ability to:
 - Add, edit, or delete bus schedules and timings.
- Features a user-friendly interface with real-time updates for convenient ticket management.
- Simplifies travel planning and ticket management for both users and admins.
